

## Sponsor Prospectus

### The 7<sup>th</sup> International Conference on Flotation for Water and Wastewater Systems

September 26-30, 2016 Toulouse, France

You are invited to become a sponsor of the 7<sup>th</sup> IWA Specialty Conference on "Flotation for Water and Wastewater Systems".

The purpose of this conference on flotation is to bring together a diverse group of engineers, scientists, and utility personnel who specialize in physical and chemical treatment processes and are interested in better understanding the growing area of dissolved or induced gas flotation. As water and wastewater engineers work to meet growing demands or treat more difficult source waters, the flotation process is becoming much more common and wide-ranging.

The conference will cover a number of topics from fundamental theory to application. Attendees are expected to include:

- Academics (Professors and Students)
- Water and Wastewater Utility Managers and Staff
- Consultants
- Government Officials
- Equipment Manufacturers
- Researchers

#### Conference Topics

- Fundamental and applied research
- Modelling and simulation
- Developments in flotation equipment technology
- Developments in design and operation
- Municipal drinking water and wastewater treatment
- Industrial water and wastewater treatment
- Water reuse
- Pretreatment for membranes
- Pretreatment for desalination
- Removal of contaminants
- Hybrid processes
- Environmental impacts and energy footprint
- New ideas
